

In the next activity, the answer can be yellow, purple, blue, or red.

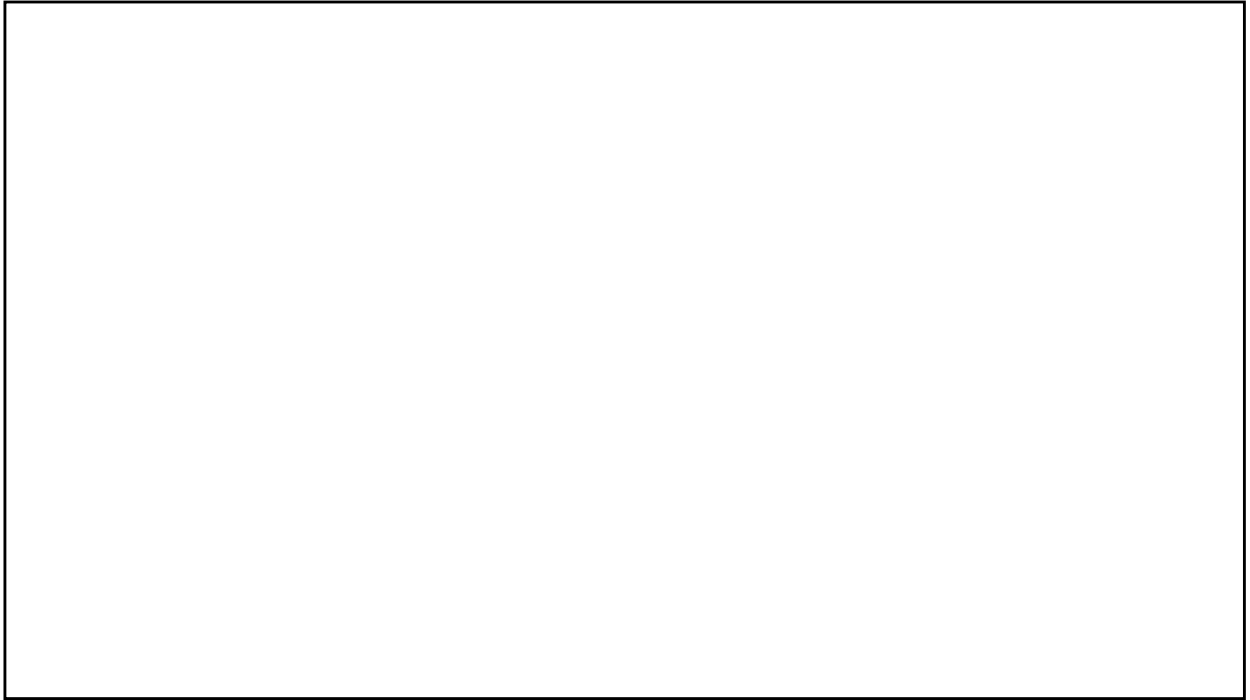

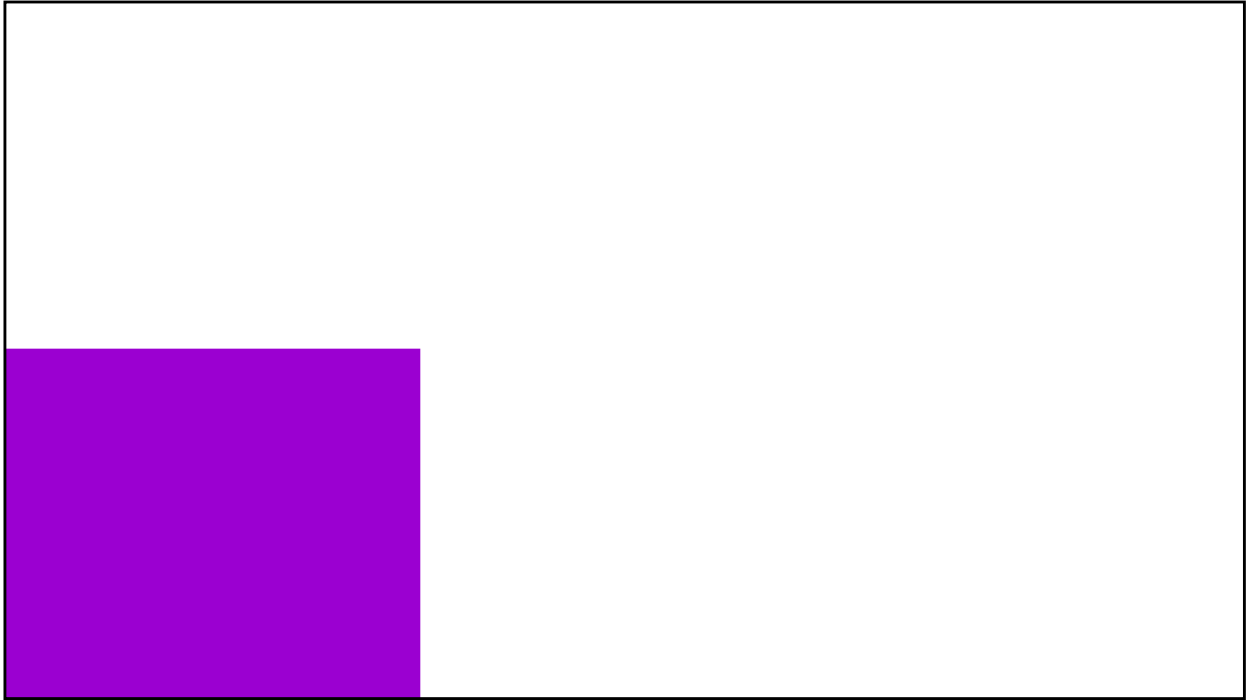

Let's make sure it is working! Tell me when you see each color on the screen!

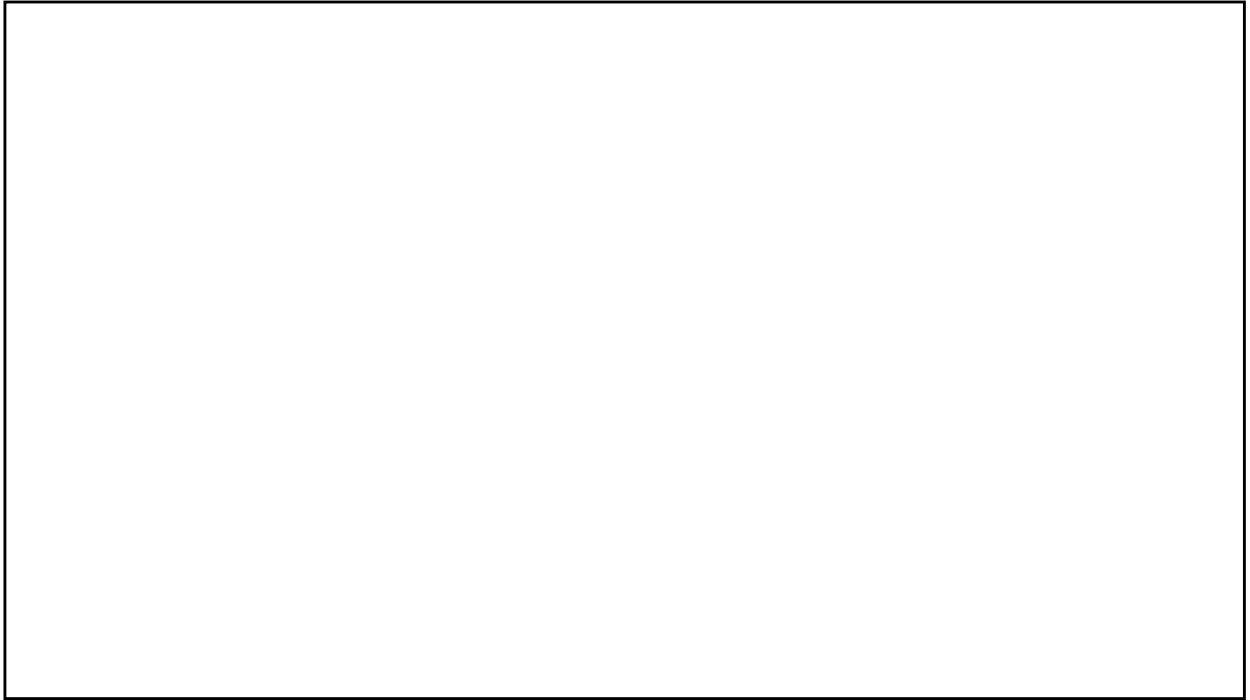

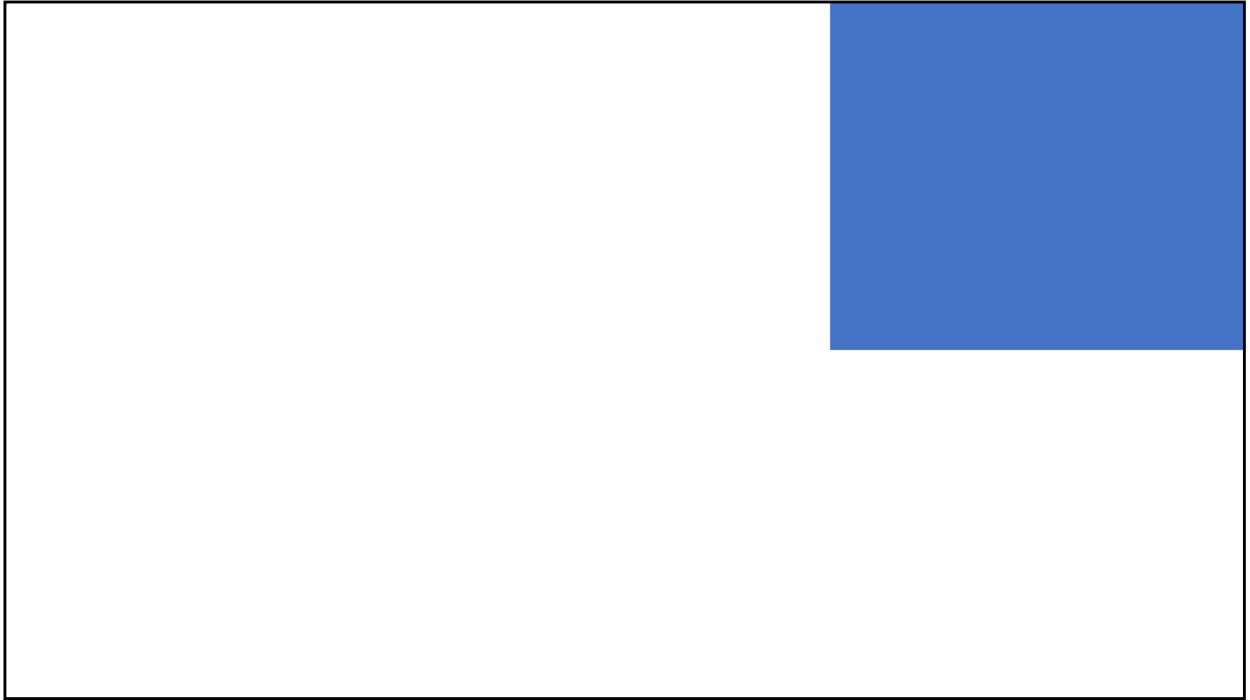

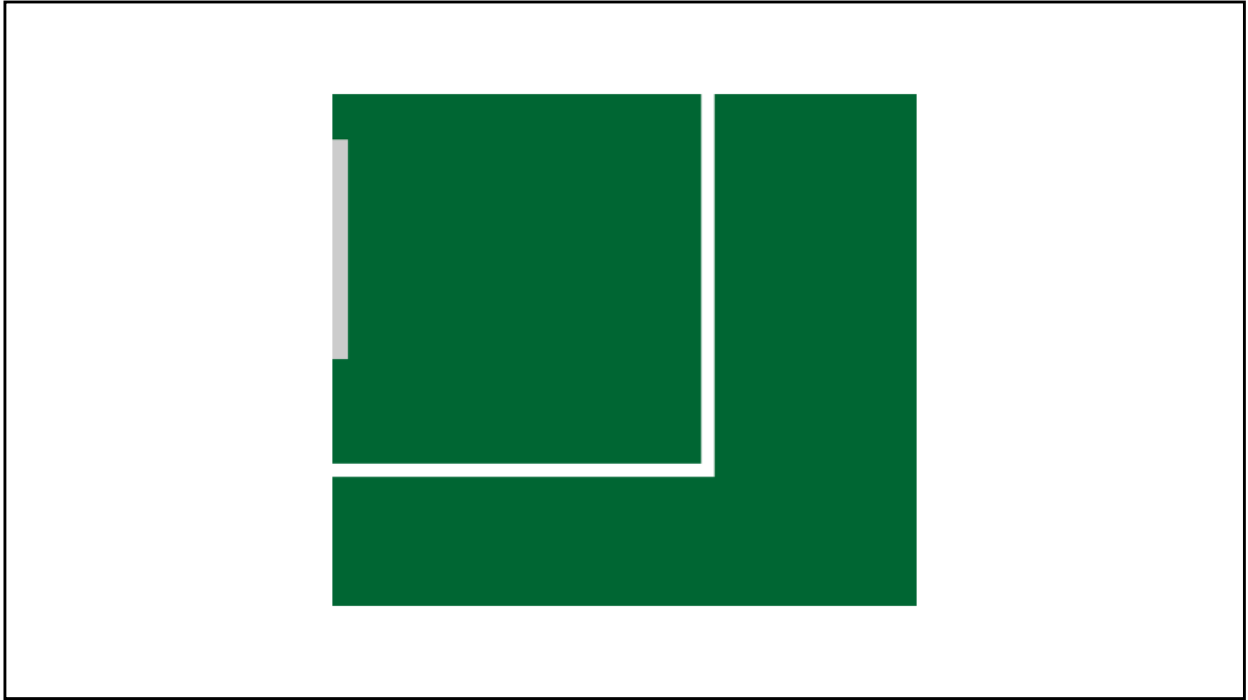

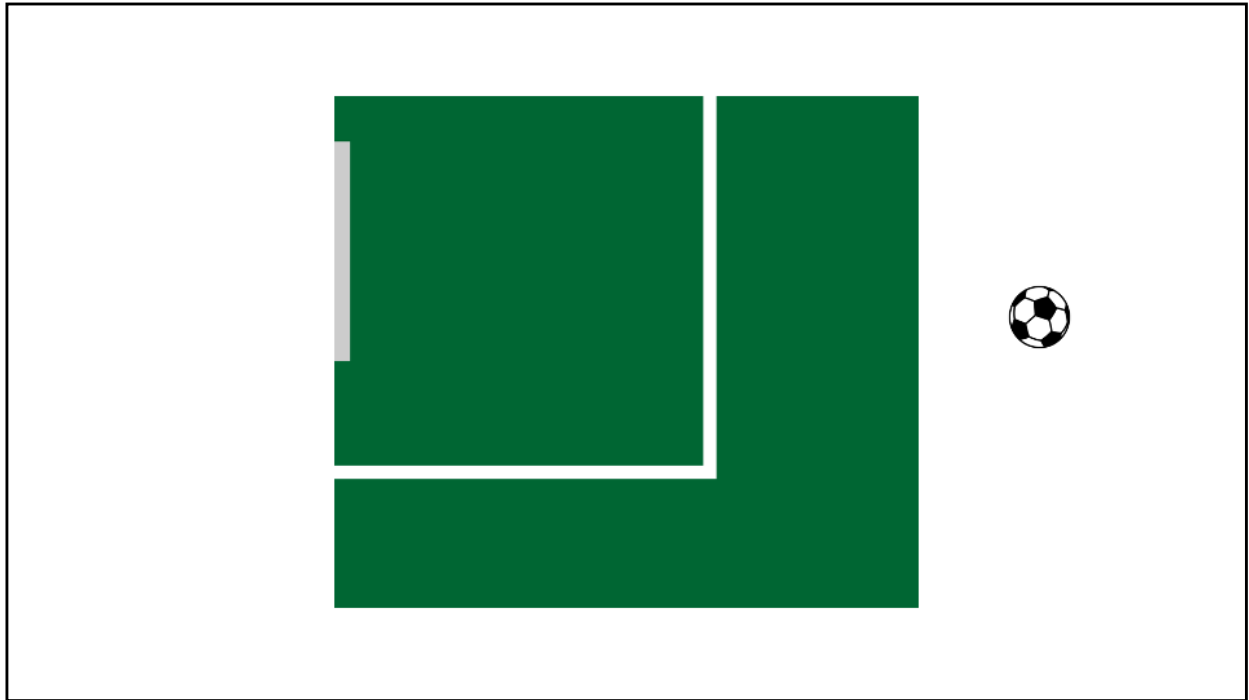

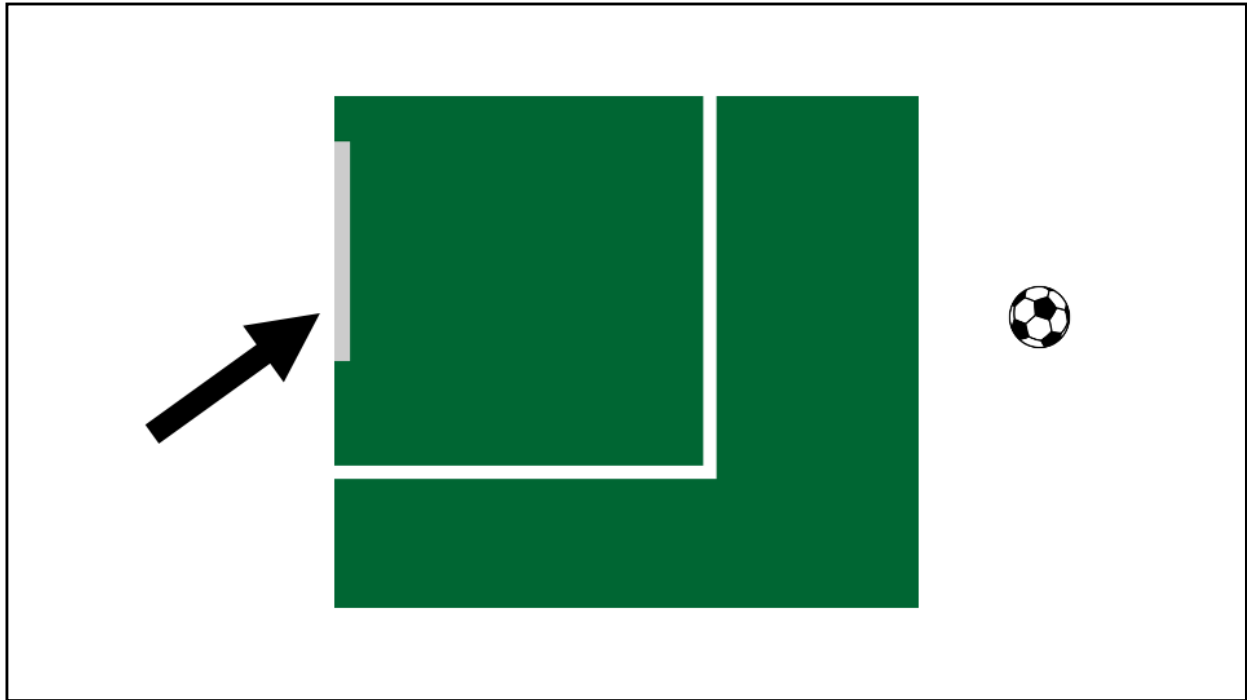

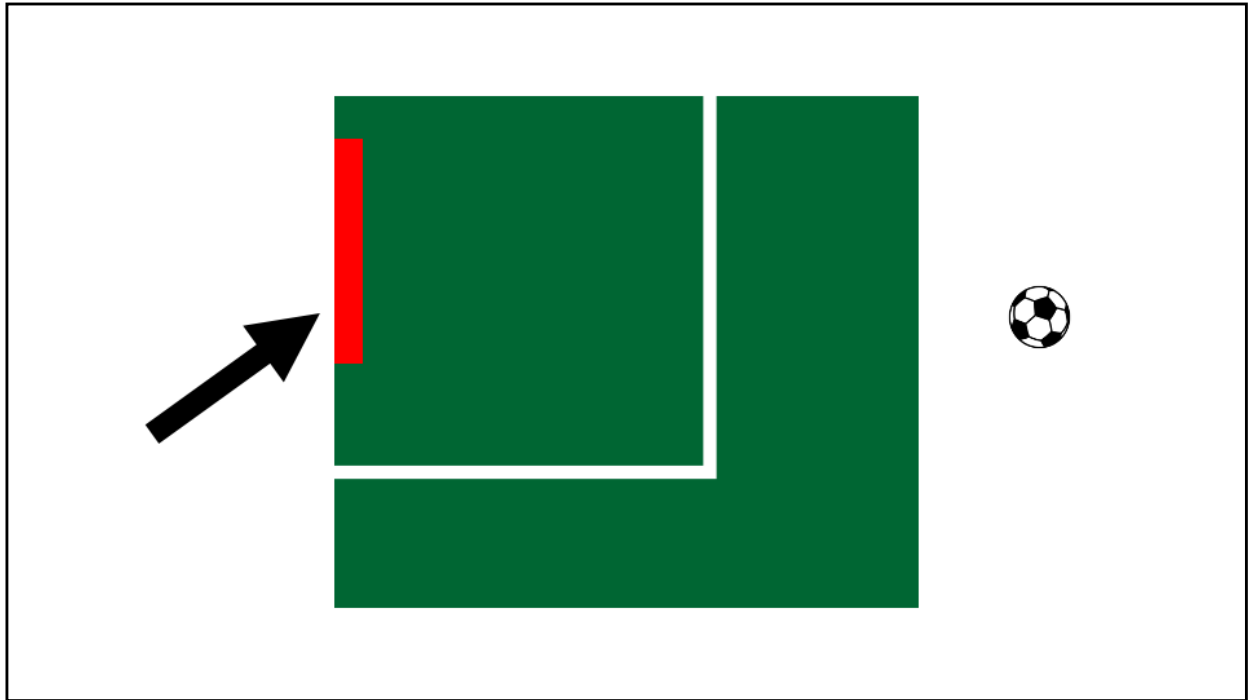

Great! In this activity, all the questions will be about this picture. This is a picture of a field where people can play sports.

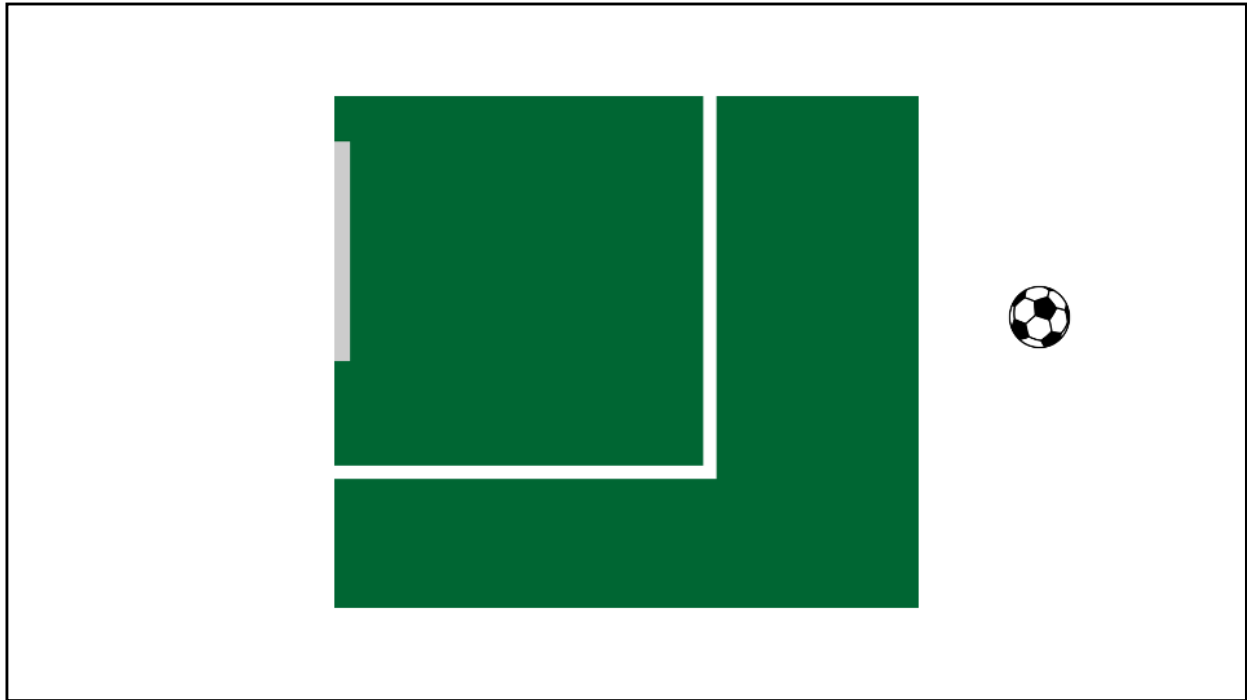

For example here is a soccer ball. One of the sports people could play on this field is soccer!

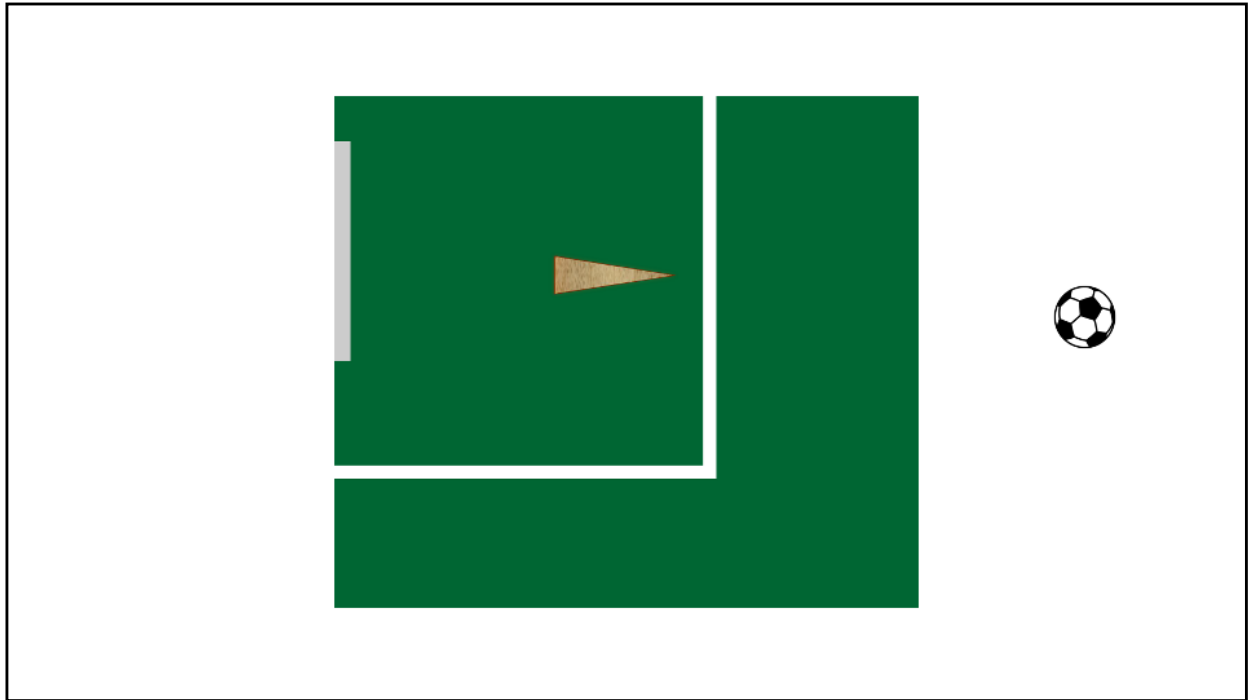

Now there is an arrow pointing to a box. The box is the goal! So when the ball goes into the goal, one of the teams scores a point!

I made the goal red in this picture so it is even easier to see!

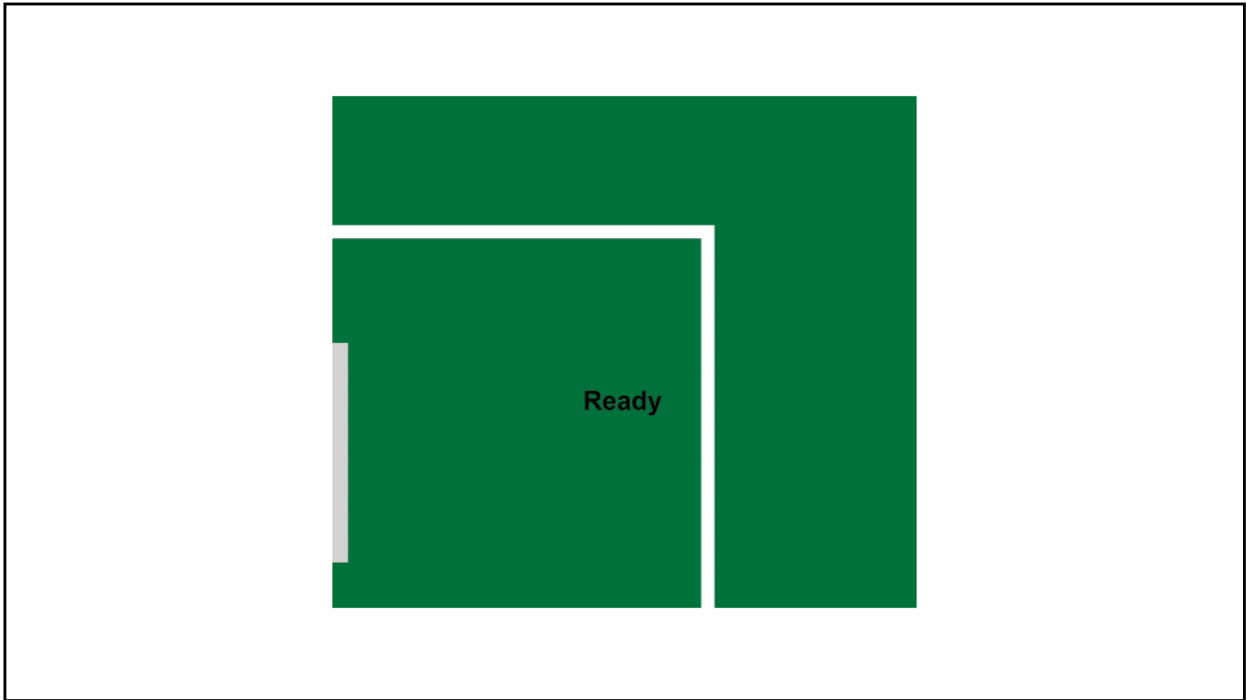

So here is the field with the ball and the goal. There is one more really important thing about the field. Sometimes, there is a big wooden block on the field.

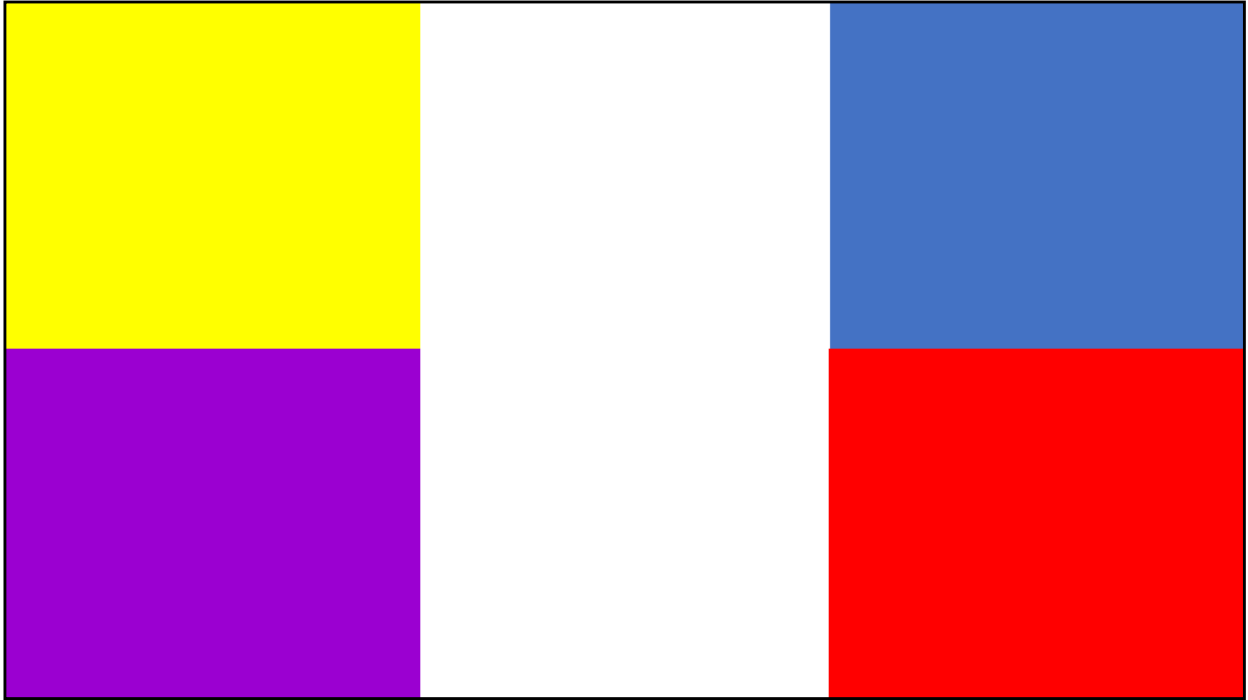

Here is the big wooden block. If the ball hits the block, the ball can bounce and go in a new direction!

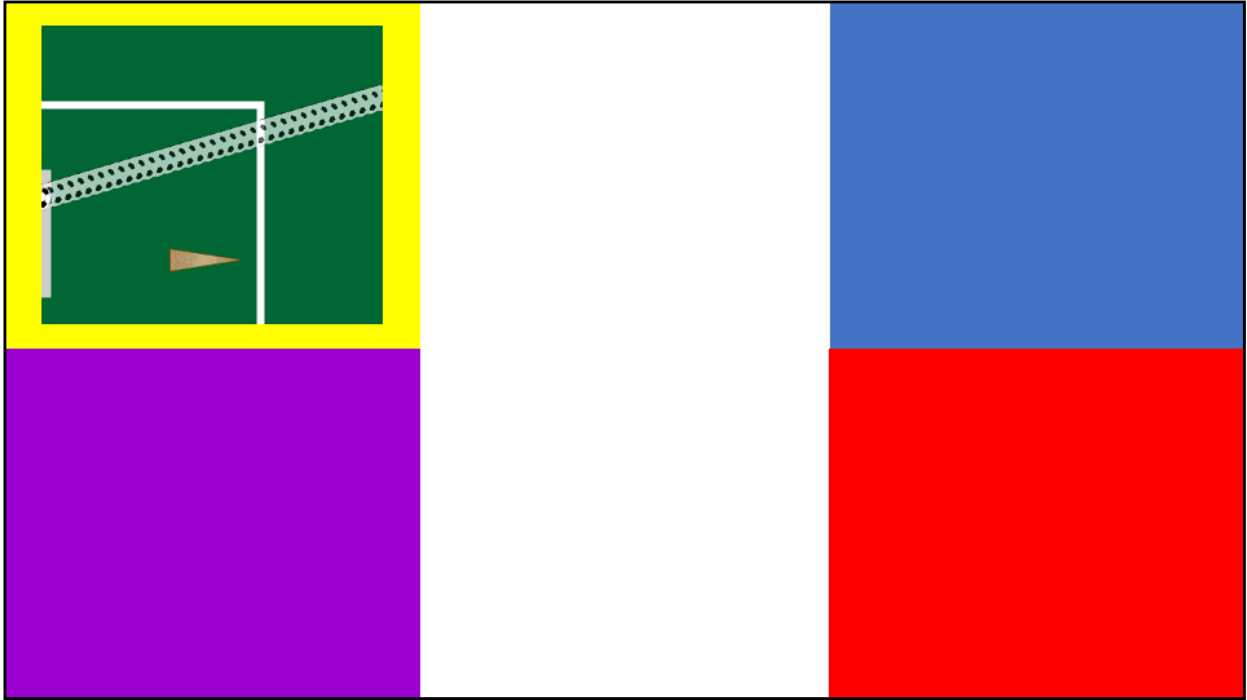

Now I'm going to show you some short videos of the ball moving, and after each one I'll ask you a question about it.

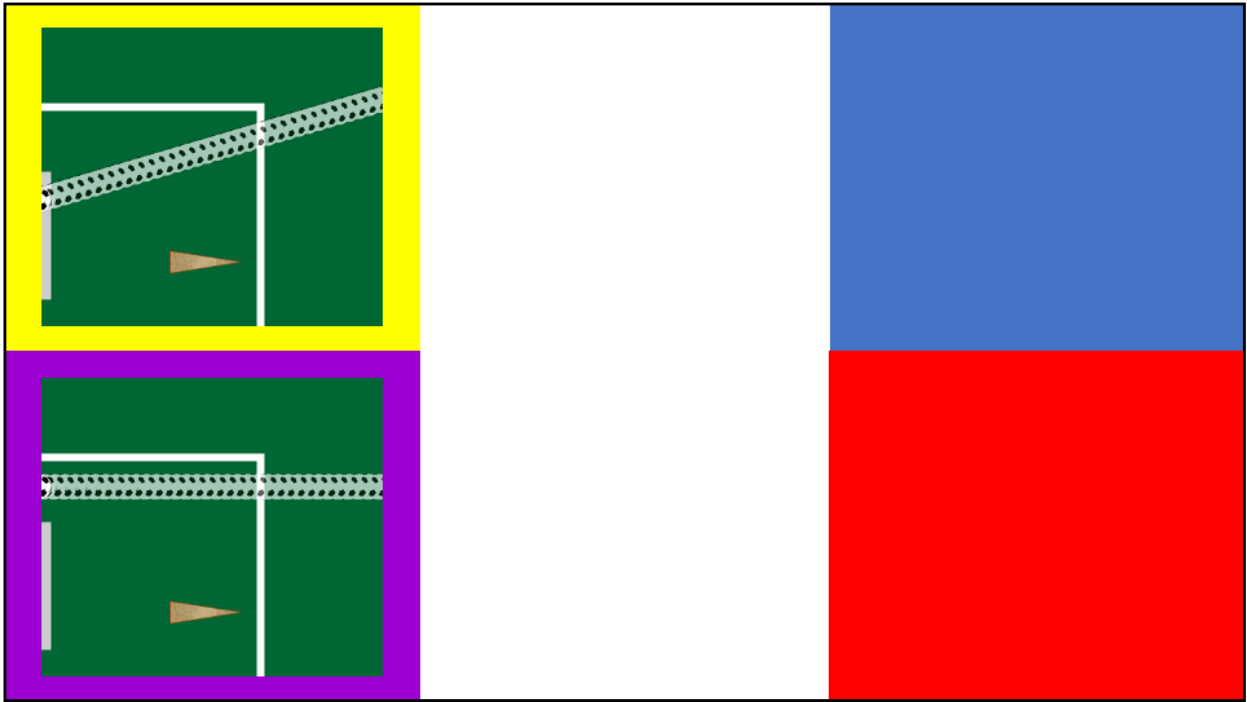

T_A_inv

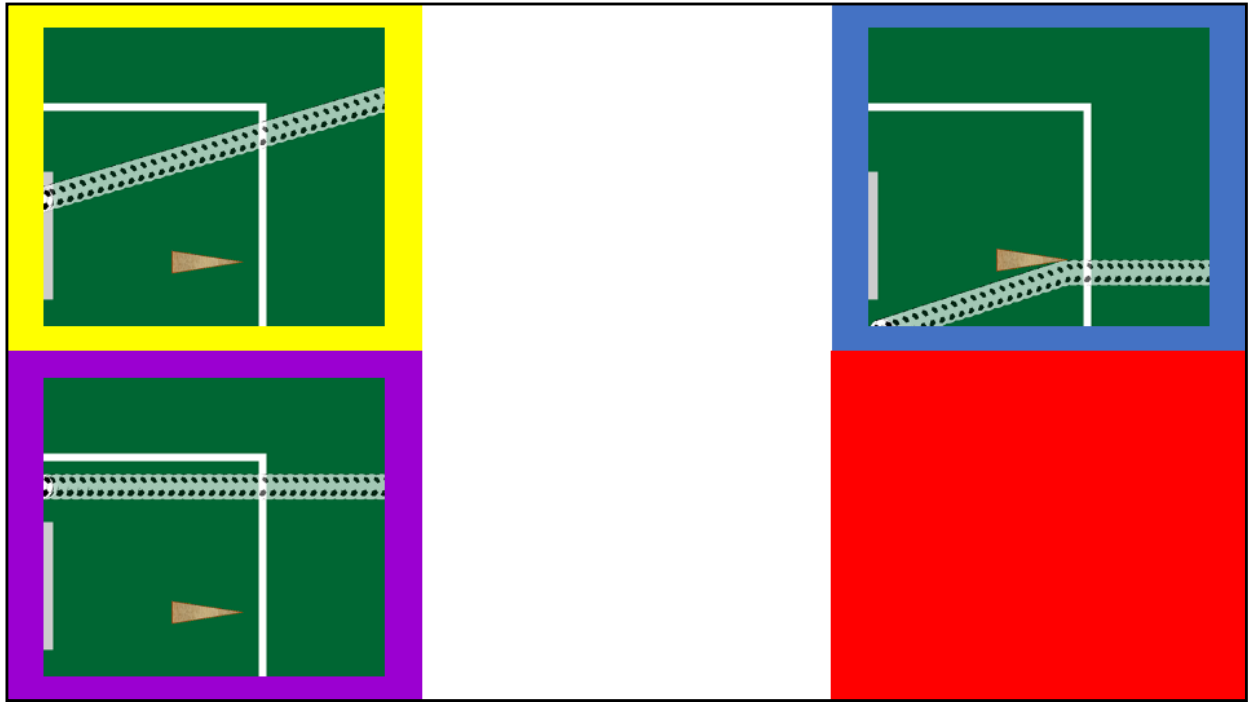

Can you tell me which one of the pictures on the sides shows where the ball went?

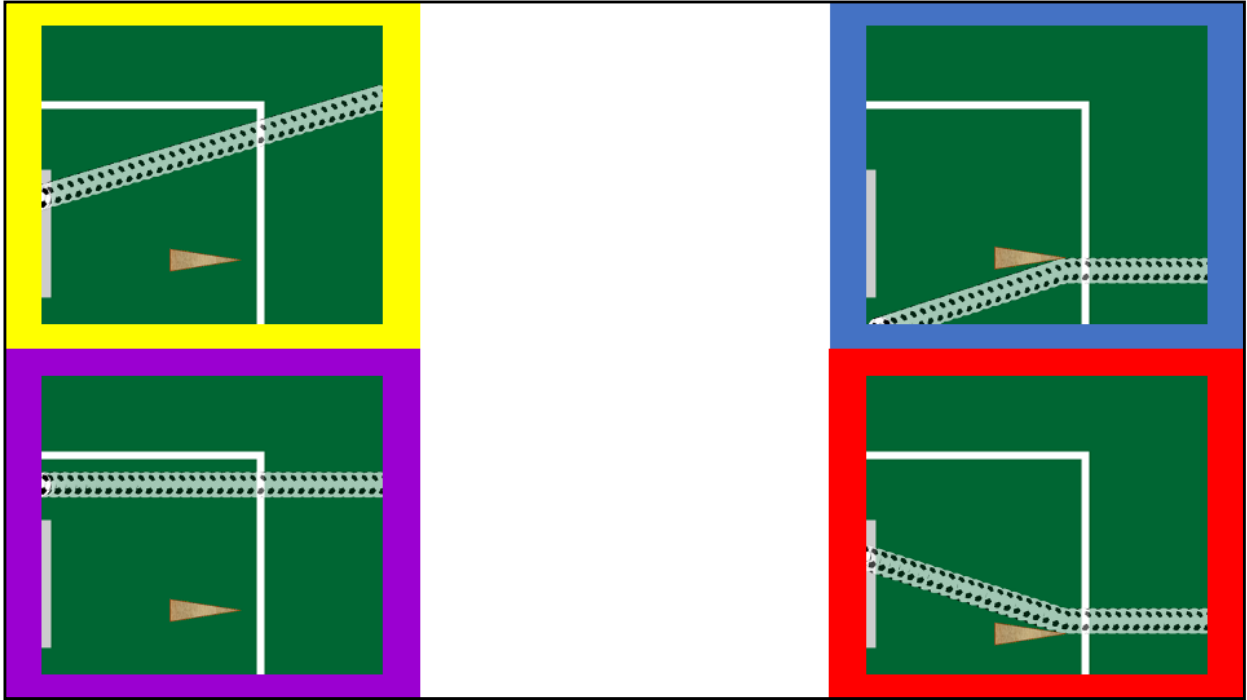

Is it in Yellow...

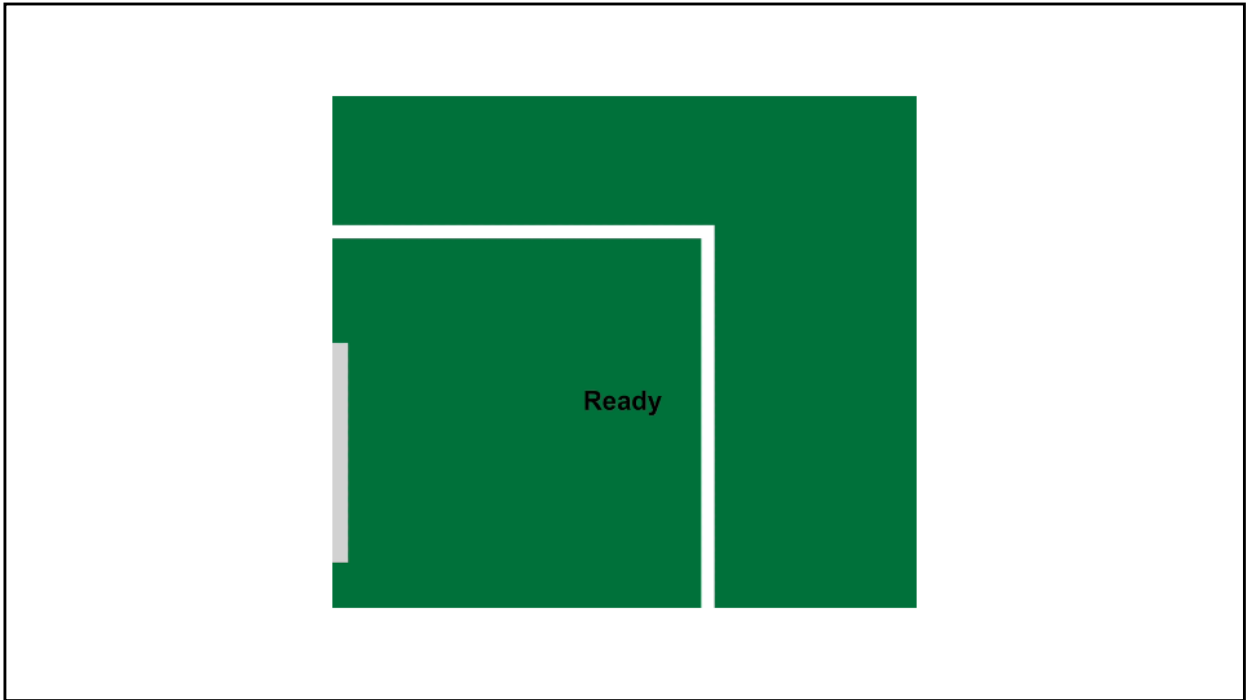

Purple...

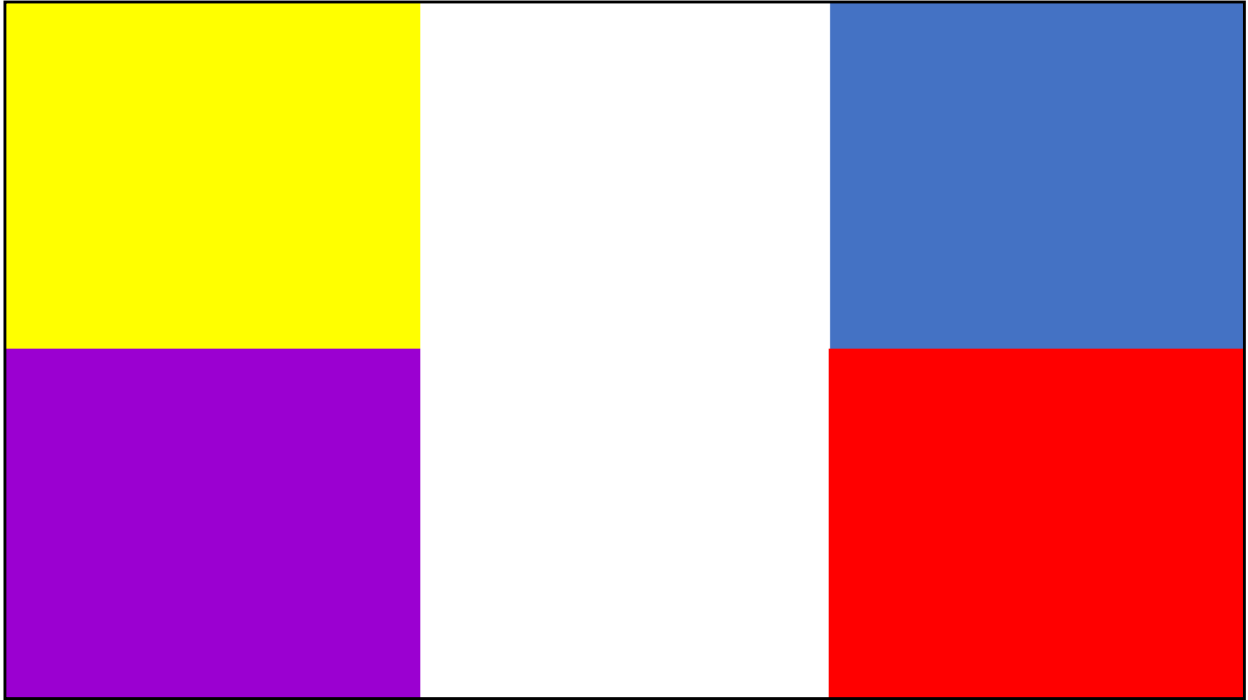

Blue...

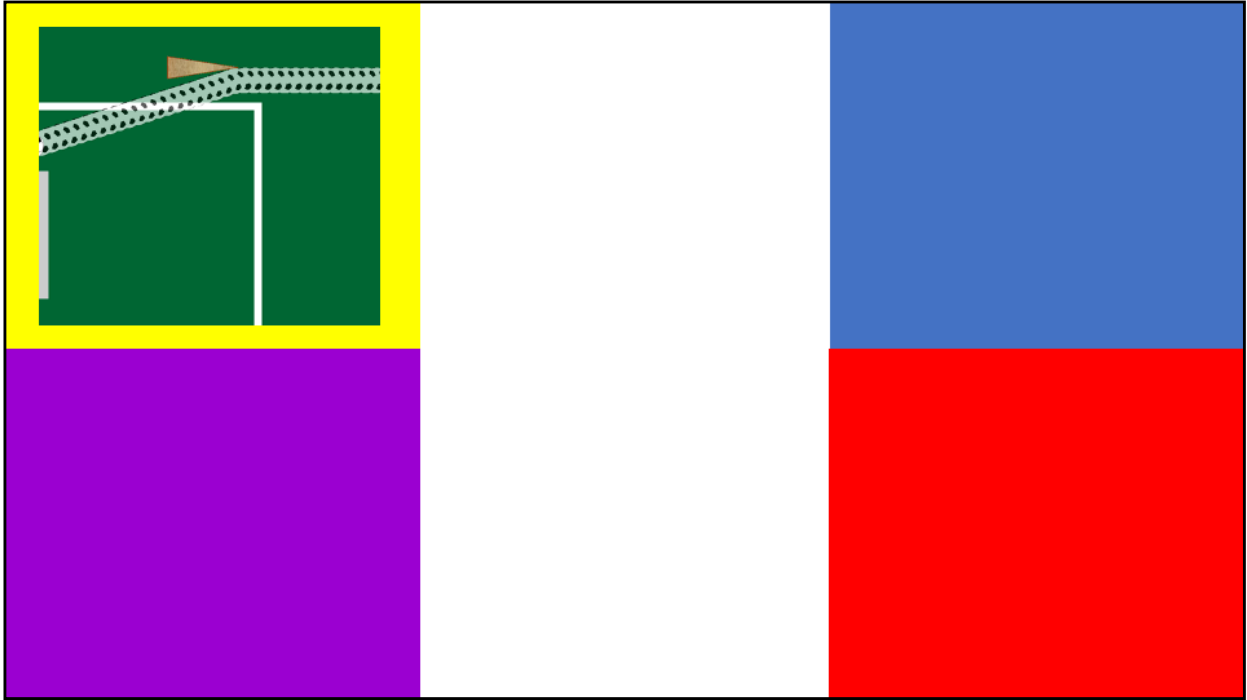

Or Red?

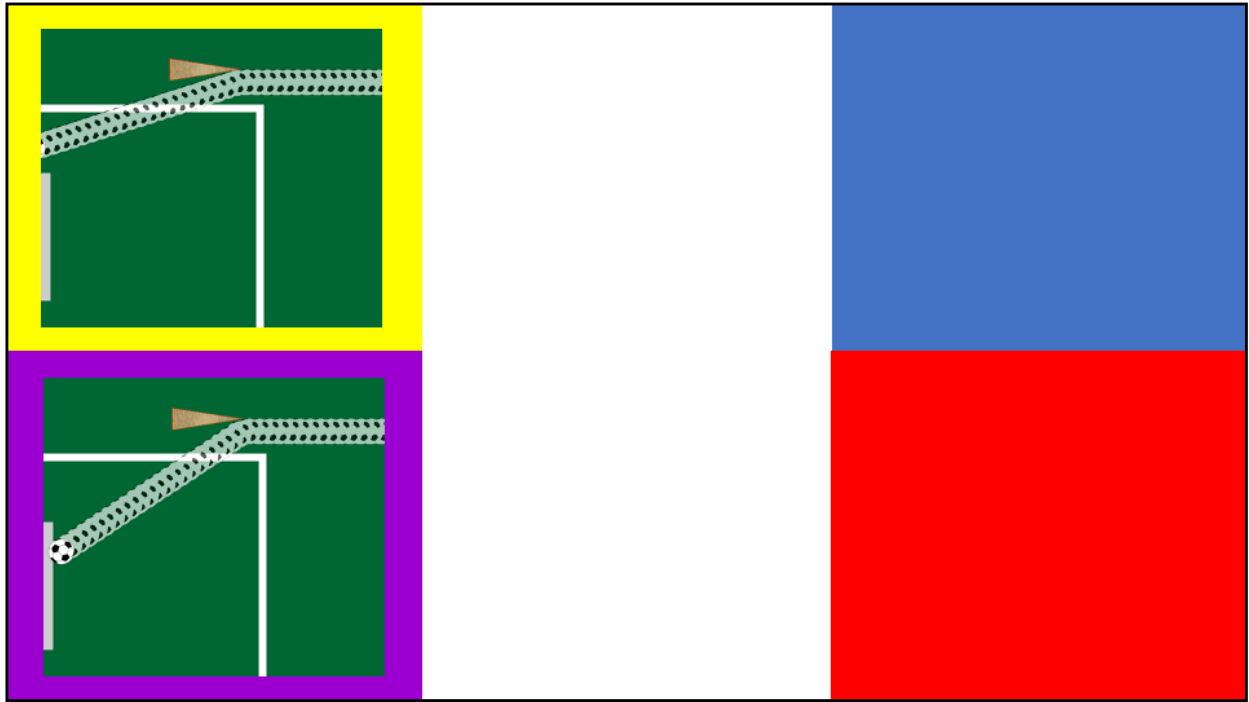

T_C_inv

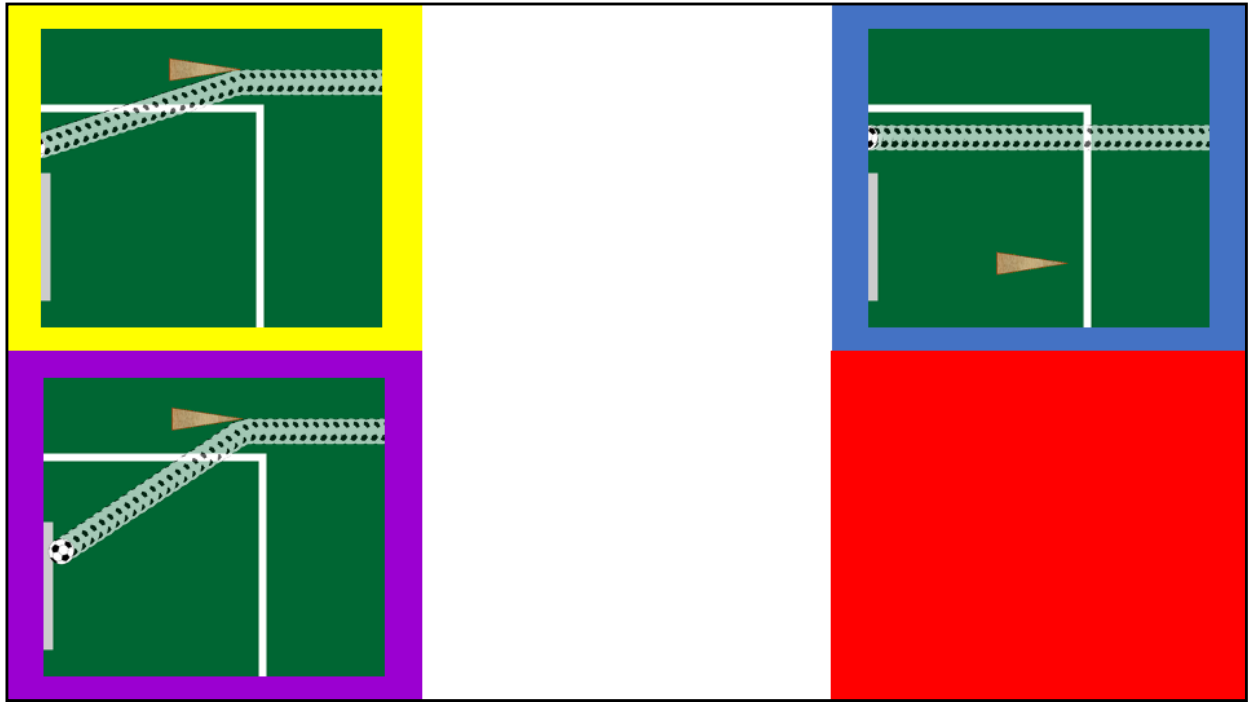

Which path did the ball take?

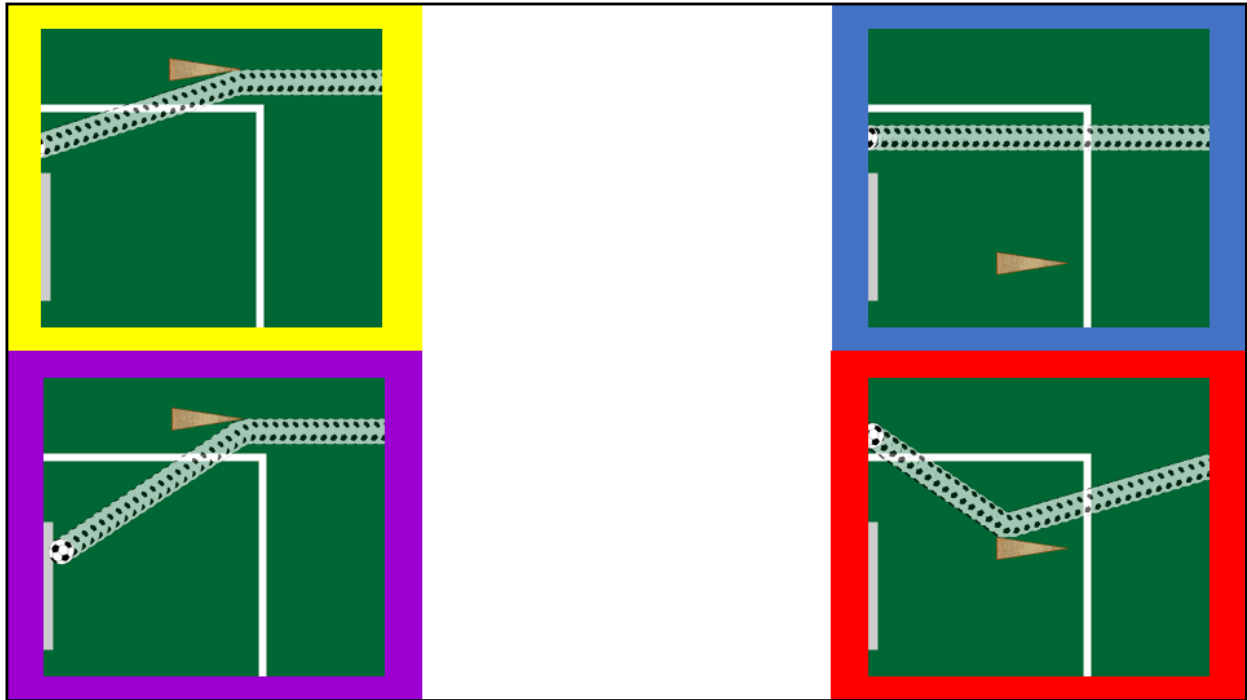

Is it Yellow...

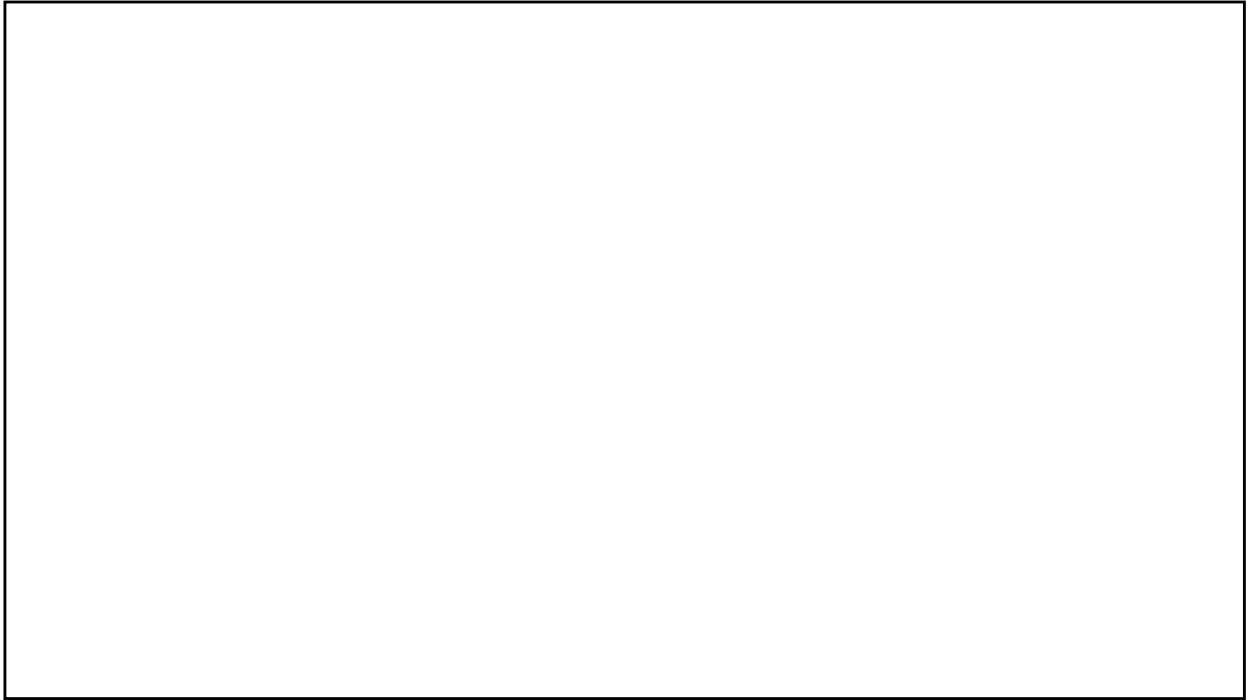

Purple...

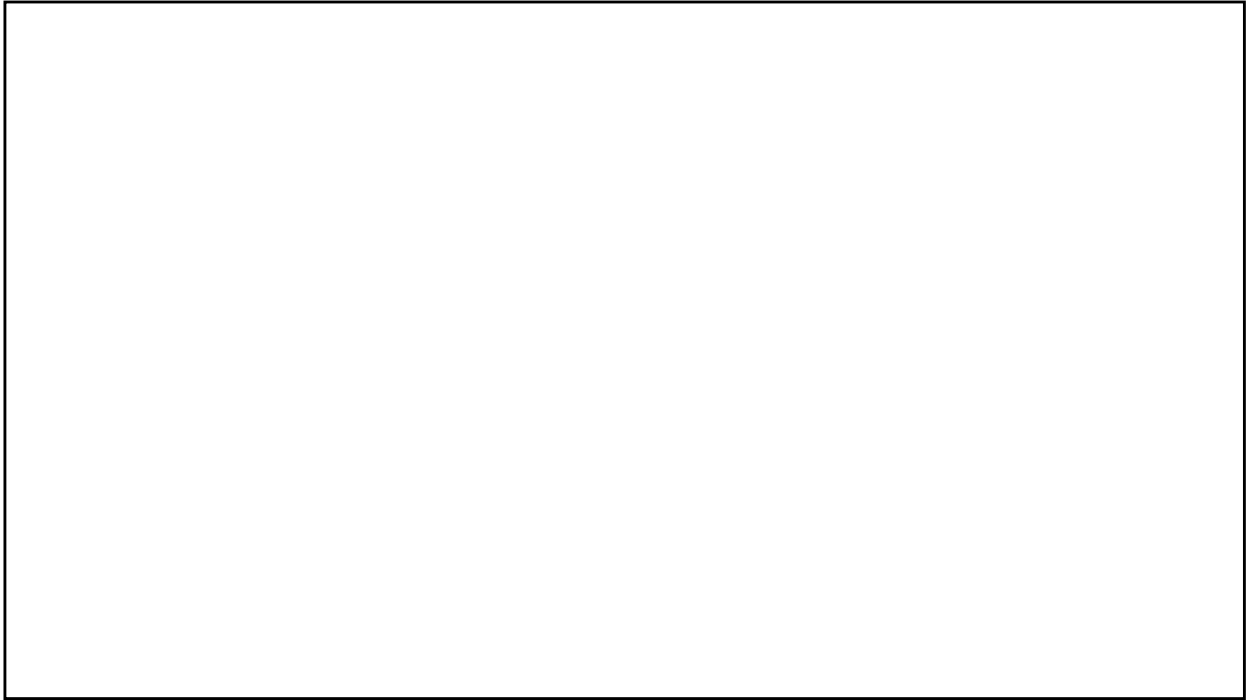

Blue...

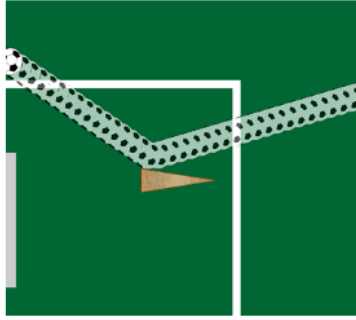

Or Red?

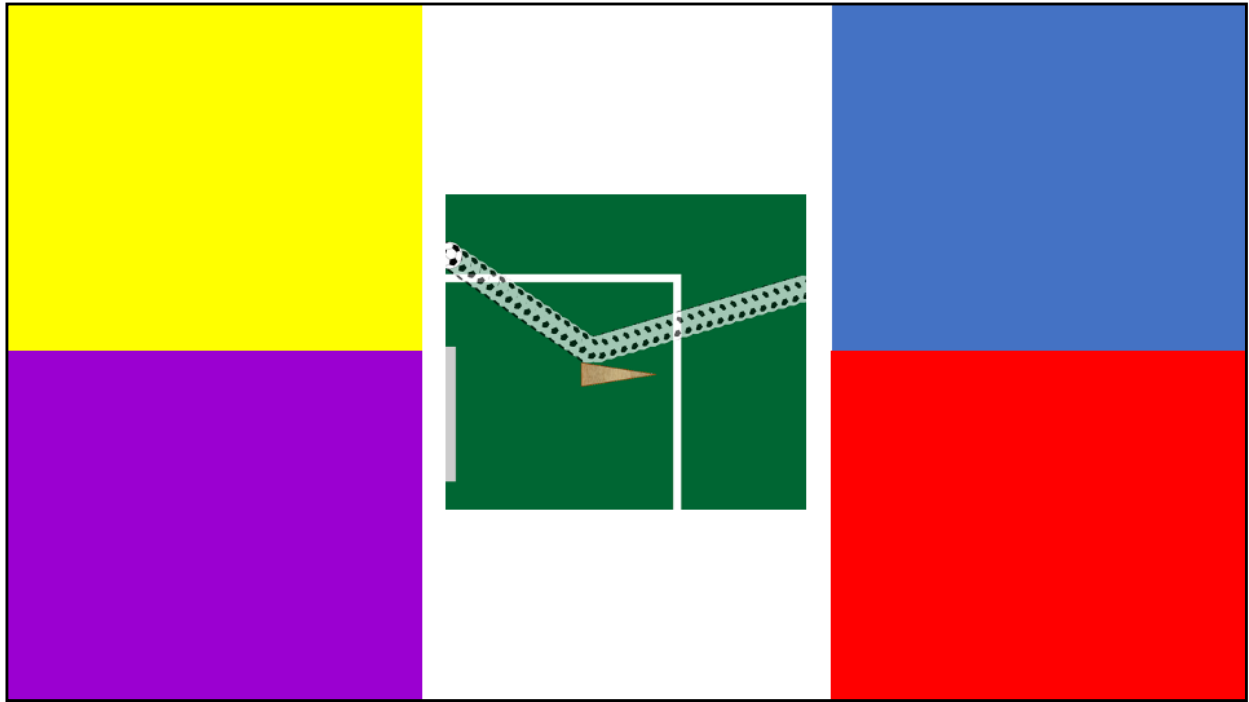

Watch this!

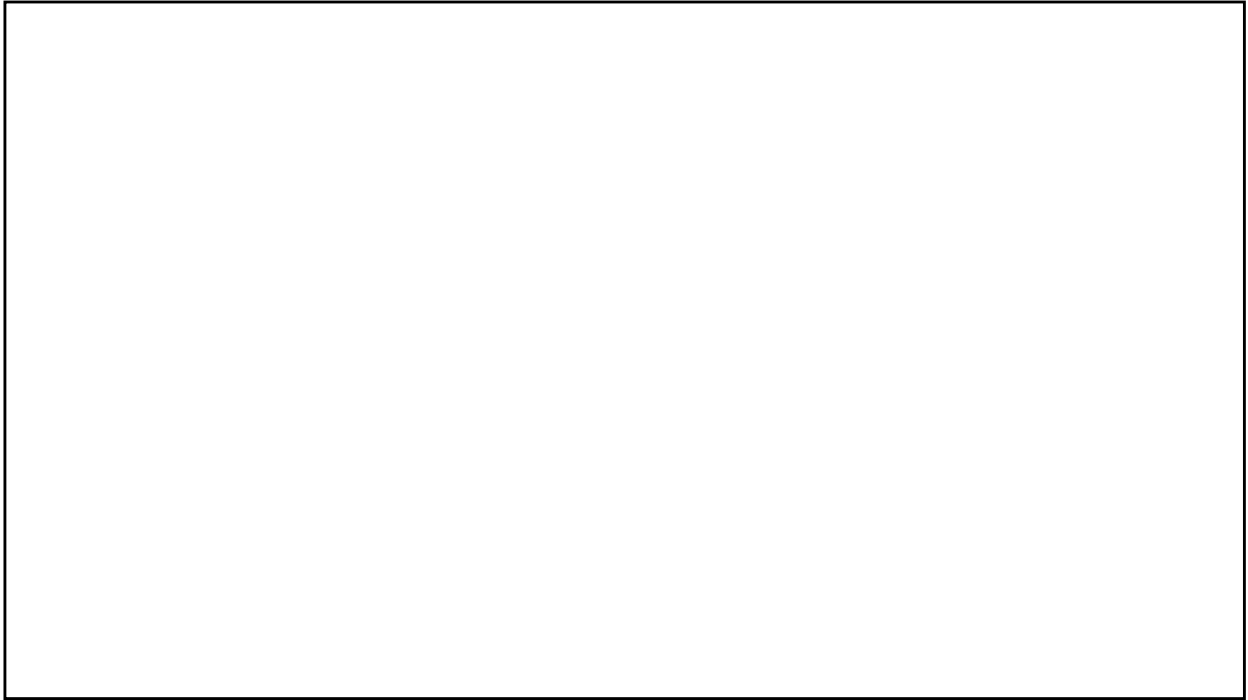

Great work so far! Now the activity will be a little bit different. You'll watch the video, but then....

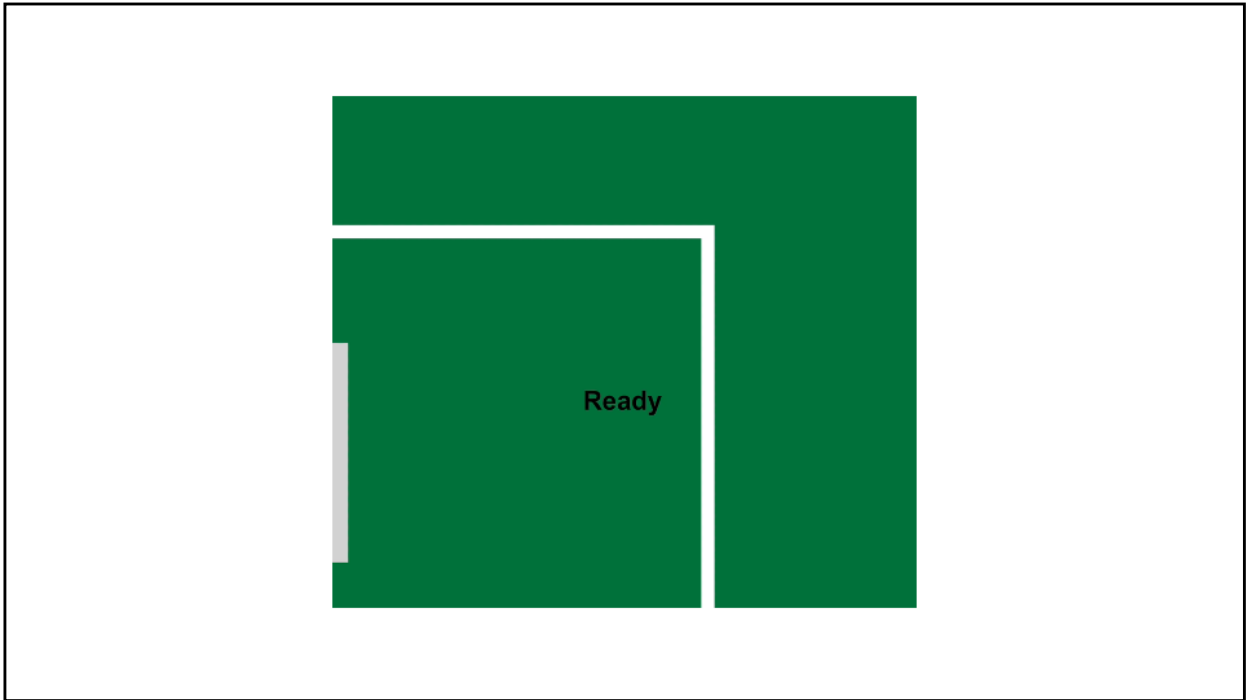

I'll show you a picture of what actually happened in the middle

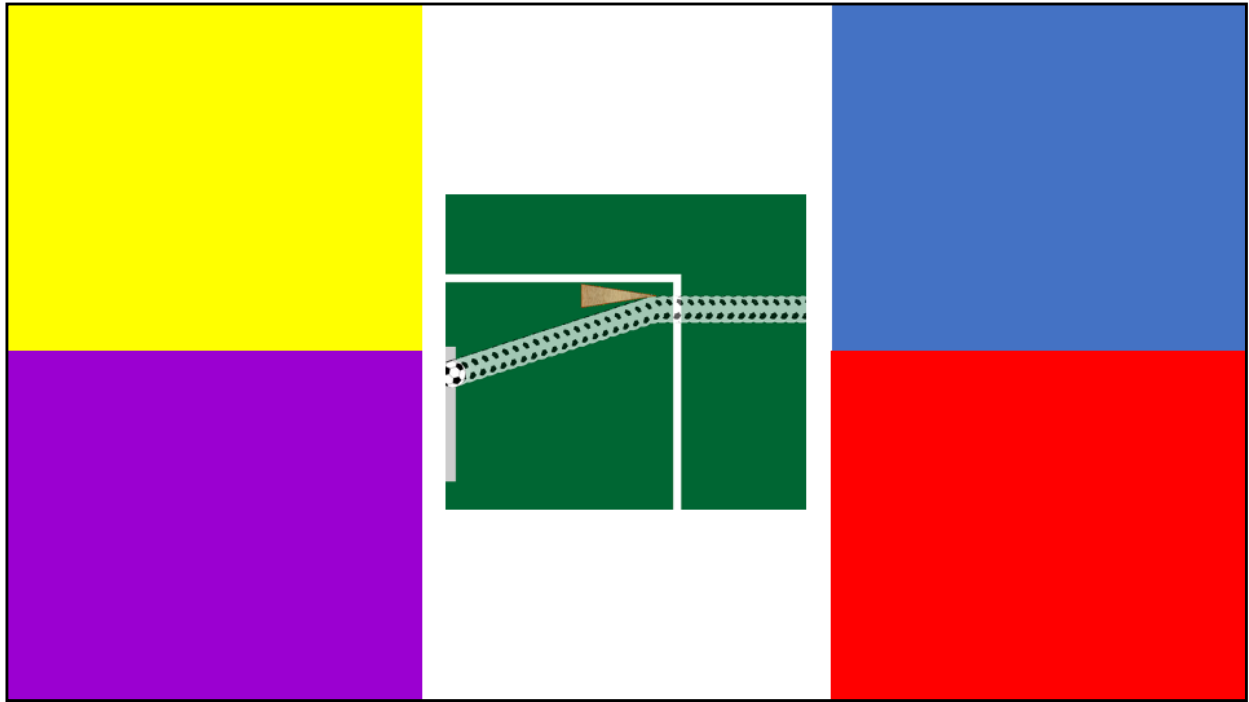

And some paths the ball could have taken in the boxes on the side. I'll ask you what path the ball would have taken if there had been no block on the field.

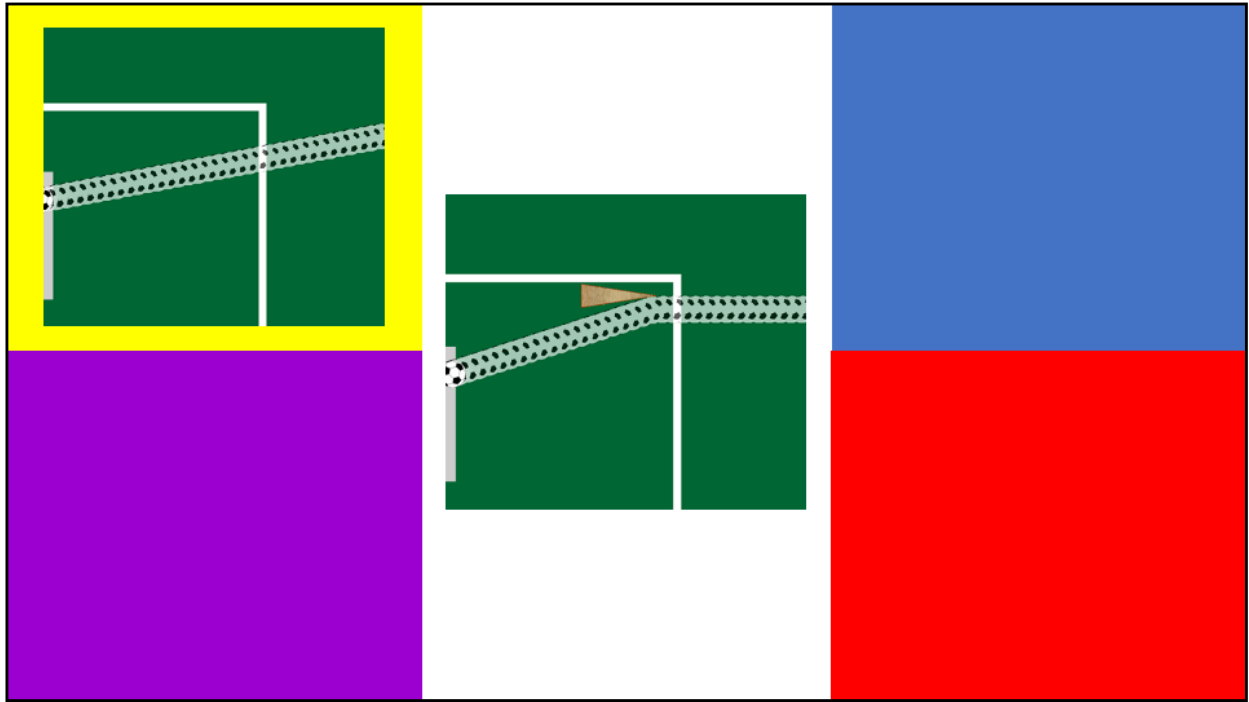

Watch this!
